

Exiequielle John Frias (XC)

Vue.js Developer

Manila, Philippines | frias.exiequiellejohn@gmail.com | linkedin.com/in/exiequielle-john | github.com/jagwaw

SUMMARY

Vue.js developer with 8+ years building responsive, production-grade web applications for fintech and SaaS products serving thousands of daily users. Deep experience with Vue, Vuex, Vue Router, TypeScript, SCSS, and Webpack-based builds. Comfortable owning features from user stories through peer review, real-time UI, performance tuning, and production support.

TECHNICAL SKILLS

Frontend: Vue.js, Vuex, Vue Router, Vuetify, Nuxt.js 2 & 3, TypeScript, JavaScript (ES6+), SCSS/SASS, Webpack, Firebase, Tailwind CSS, responsive UI, WebSocket, PWA, GSAP

Practices: Agile ceremonies, peer code review, user-story delivery, UX-focused iteration, production incident response, mentoring junior developers

Tools: Git, Figma, Postman, JIRA, Confluence, Bitbucket, ClickUp, Cursor, Claude, ChatGPT

Backend familiarity: Python, Django REST Framework, Django Channels, Redis, Celery, REST APIs, PostgreSQL

PROFESSIONAL EXPERIENCE

Billlease - Full Stack Developer (Vue/Nuxt focus)

Feb 2024 - Present

- Ship responsive Vue/Nuxt + Vuetify interfaces for Billlease fintech flows used by thousands of daily end-users
- Refactored Vuex state for sign-up, account recovery, and verification journeys
- Built real-time Chat Notification UI and verification flows with WebSocket-backed updates
- Integrate Firebase (App Check, client SDK) in production Billlease Nuxt applications
- Partnered with product owners on user stories, grooming, demos, and peer code reviews
- Diagnosed and resolved production UI issues across mobile and desktop breakpoints
- Delivered Bills Upload AI UI, Pay Now Installments UI, FOMO, and Mobile Load Promo features

Penbrothers (Client: Gamesys / Bally's) - Frontend Developer

Oct 2021 - Jan 2024

- Maintained and improved client-facing websites for a global gaming company
- Designed and implemented mobile-first, performance-conscious UI features
- Collaborated with European and American stakeholders on requirements and frontend delivery
- Participated in sprint planning, reviews, and cross-timezone communication

Narrasoft (Client: Panoply.io) - Python Developer

May 2021 - Oct 2021

- Worked on a cloud-based data warehouse platform for an Asia-based client team
- Created and modified data source integrations from multiple providers
- Collaborated with stakeholders on requirements, delivery, and technical decisions

Remote Staff - Junior Full-Stack Developer

Jul 2018 - May 2021

- Built a remote classroom platform with real-time activity tracking for teachers and students
- Developed project and task management UIs for clients, staff, teachers, and students
- Delivered AngularJS + Python apps; collaborated with Australian clients on remote product work

EDUCATION

Bachelor of Science in Information Technology

Lyceum of the Philippines University - Manila | 2014 - 2018
